when confronted by a predator. Social insects such as ants and bees must collectively decide where to build a new nest.

### **Collective animal behavior - Wikipedia**

Scientists from the Institute for Conservation Research at the San Diego Zoo and UCLA are researching animal decision making across disciplinary boundaries. In a recent study, they investigated how animal decision making can be affected by human impacts on the environment. They argue that understanding the ways animals respond to different situations can help scientists conserve species more effectively.

### **Think like an animal: Understanding animal decision making ...**

Animal decision making can be explained from several perspectives (Kahneman and Tversky, 2000). From cognitive perspective, the decision making process is regarded as a

## **CLINICAL DECISION MAKING - 1 | Veterinary Practice**

Even with the potential limitations of animal research, studies have shown that the decision-making process of animals is very similar to that of humans. Over time, all animals (humans and non-humans alike) weigh the advantages and disadvantages of their choices and behave accordingly.

## **Exploring Parallels Between Human And Animal Decision-Making**

Equally shared decision making with a super-majority threshold ( $R_{1s/d} = R_{2s/d} = 0$  and  $R_{3s/d} = 1$ ) is an ESS if  $B_3 > B_2 + C_2$  late. Unshared decision making ( $R_{1/2/3s} = 0$  and  $R_{1/2/3d} = 1$ ) is an ESS if  $B_3 > B_2/2 + (C_2 \text{ late} + C_1 \text{ late})/2$  and  $B_3 > B_2 + (C_1 \text{ late} + C_1 \text{ early})/2$ . It follows that if consensus costs are low relative to grouping benefits, the situation is ...

## **decisions**

Animal behavior offers insight into the evolutionary roots of decision making. Of course, one of the foremost reasons to use animals in decision research is methodological, as briefly touched upon in the introduction. Neuroeconomics aims to reveal the neural processes underlying economic decision making.

## **Why We Should Use Animals to Study Economic Decision**

...

A helpful starting point to framing normative questions around animal care decision-making is the status quo. By looking at who is currently making such decisions, how they are made, what factors are taken into account, and how conflict is resolved, it will be easier to see where changes need to be made and how that might be done.
