structuring the production process and for developing the control of equipment. ISA-88 can be applied in fully automated, semi automated and even in completely manual production processes.

### **ISA-88 | ISA**

ISA 88 (also known more simply as “S88”) is a set of standards for implementation of Batch Control systems.

# Download Ebook Isa 88

Its purpose is to provide consistent terminology and a framework for designing and modularising batch control systems. The S88 standard details three models for defining a batch control system:
