LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

### Talking With Patients About The

In Talking with Patients, Sanford Shapiro, like the best of mentors, takes his readers along with him as he recounts his own experience in learning to be a therapist, psychoanalyst, and supervisor. Each experience of learning theory and therapeutic approach is explained through richly informative clinical examples. Shapiro has mastered the art ...

Sometimes just being there to listen—really listen— is the best thing you can do. Let the person with cancer talk without interrupting. You don't always have to have all the answers, just a sympathetic ear. He or she may not want to talk at all, and would rather sit quietly. It's okay to sit in silence. Don't minimize their experience.
